Summary

Computer Science student at BRAC University with hands-on experience in full-stack web development through a software development internship and MERN stack projects. Skilled in React.js, Node.js, Express.js, MongoDB, MySQL, RESTful APIs, JWT authentication, MVC architecture, and responsive web application development. Experienced in building secure applications with role-based access control, CRUD operations, and scalable backend systems, with experience deploying applications using Vercel and Render.

Work Experience

Software Development Intern

June 2026 – August 2026

Brain Craft Ltd.

- Developed full-stack web applications using the MERN stack, including React.js frontend interfaces and Node.js backend services.
- Built responsive React.js components and integrated RESTful APIs using Express.js for efficient client-server communication.
- Utilized MongoDB, Git, GitHub, and Postman for database operations, API testing, and version-controlled development.

Education

BRAC University

2022 – Present

Bachelor of Science in Computer Science

Shahid Syed Nazrul Islam College

2018 – 2020

Higher Secondary Certificate (HSC) – Science — GPA: 5.00

Mymensingh Zilla School

2016 – 2018

Secondary School Certificate (SSC) – Science — GPA: 5.00

Projects

StudentMS – Student Management System

Live Demo — GitHub

- Developed a full-stack student management system using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication, role-based access control, CRUD operations, RESTful APIs, and responsive dashboards.

NexPlay – Entertainment Discovery Platform

Upcoming — GitHub

- Developed a full-stack entertainment discovery platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS.
- Built JWT authentication, RESTful APIs, role-based access control, and responsive dashboards following MVC architecture.

Disaster Management System

Upcoming — GitHub

- Developed a MERN-based disaster response platform with secure authentication, RESTful APIs, and MongoDB data management.
- Implemented incident reporting, volunteer coordination, and relief request modules with role-based functionality.

Technical Skills

Languages JavaScript (ES6+), Python, PHP

Frontend React.js, HTML5, CSS3, Tailwind CSS, Vite

Backend Node.js, Express.js

Databases MongoDB, MySQL

Deployment Vercel, Render

Tools Git, GitHub, Postman, VS Code, XAMPP, Figma

Concepts RESTful APIs, JWT Authentication, MVC Architecture, CRUD Operations, Role-Based Access Control

Languages

Bangla (Native)

English (Professional Working Proficiency)
